

WINDOWPAK™

ECO-FRIENDLY, WINDOW INSTALLATION SYSTEMS

WINDOW INSTALLATION SYSTEM

A COST EFFECTIVE AND EFFICIENT WINDOW INSTALLATION SYSTEM PROVEN FOR THE INSTALLATION OF NEW OR REPLACEMENT WINDOWS

Premier Industrial Supply, Inc. has developed a **Window Installation System** for New Construction or Replacement windows that is designed with everyone in mind: the contractor / builder, the installer, the homebuyer and even the environment. Introducing – **WindowPAK: the Eco-Friendly Window Installation System:**

- Cost Effective **Single Source Solution** for the Contractor / Builder
- **Straightforward & Simple** to use & install for the Installer
- **Saves Energy & Money** for the Homebuyer
- VOC Compliant & **Eco-Friendly** for the Environment

PAK aka package [pak-ij] - noun
a group, combination, or series
of related parts or elements
to be accepted as a single unit.

Premier's WindowPAK system has been formulated and designed with compatibility in mind providing a cost effective and reliable solution. This **prevents wasting time & money** with multiple resourcing, and **decreases chance of liability issues** due to product incompatibilities. The compatible system includes **simple, easy to use products** that installers love due to the simplicity and easy to follow directions.

The homebuyer / end user gains not only the peace of mind having a compatible and reliable system utilized in their product, but also the financial benefits of **saving energy and protecting** their windows and surrounding structure. Moving beyond the homebuyer, our environment remains happy as all of the individual products are **Eco Friendly and VOC Compliant**. Premier cares greatly about the environment and is proud to actively take part in a "Green" building program.

XtraBond® 9500

MODIFIED POLYURETHANE SEALANT

A high performance, one component, permanently flexible, easy to use, multi-purpose fast cure modified polyurethane sealant. XtraBond® 9500 cures rapidly when exposed to atmospheric moisture to form a durable bond.

Features

- Non-Yellowing
- Paintable
- No Solvents

XtraBond® 50

SILICONIZED ACRYLIC LATEX SEALANT

A premium grade multi-purpose siliconized acrylic latex sealant. Developed to provide excellent adhesion to vinyl, aluminum, wood, sheet metal and common building materials without the need of a primer.

Features

- Paintable
- Excellent Flexibility
- Watertight

XtraFlash® Multi-Flash

WATER AND MOISTURE BARRIER SYSTEM

A heavy duty, flexible, tear resistant, woven polypropylene nail on flashing designed to prevent moisture and water intrusion when used around windows and doors.

Features

- Cost Effective Solution
- Job Site Durability
- High Wind Area Approved

XtraFoam™ HH

HAND HELD ADHESIVE FOAM

A very low expanding, one-component, multipurpose, polyurethane foam specially formulated to seal around window, doors, insulation areas and where air infiltration occurs.

Features

- Low Expansion Formula
- Straw Foam
- Excellent Stability

XtraFoam™

MINIMAL EXPANDING FOAM SEALANT

XtraFoam™ is a very low expanding, one-component, multipurpose, polyurethane foam specially formulated to seal around window and door frames.

Features

- Low Expansion Formula
- Will not warp or bow frames or jambs
- Excellent stability

XtraFlash® Membrane

BUTYL BASED WATERPROOF MEMBRANE

An aggressive self-adhesive & self-sealing waterproof flashing membrane that adheres to plywood, OSB, masonry, aluminum, vinyl, steel, drywall, and housewrap. The membrane is based on our proven water and moisture vapor barrier technology.

Features

- Mold & Mildew Resistant
- Wind & Tear Resistant
- UV Resistant Up to 365 days

WINDOWPAK™
