

ACCESSORIES:

XtraWipes INDUSTRIAL CLEANING TOWELS

XtraWipes are pre-moistened, heavy duty, non-abrasive hand towels formulated to easily remove soil, grease, oil, and sealant from hands leaving them clean and conditioned. Powerful, yet safe, this multi-based formula works together within an absorbent hand cleaner towel for proven performance.

Glass Cleaner AMMONIA FREE AEROSOL FORMULA

An ozone friendly glass and surface cleaner formulated for the glass, windows and surface markets. It is an ammonia free, streak free, non-flammable, aerosol formula concentrate used to clean windshields, glass, metal, and other hard surfaces.

Foam Cleaner POLYURETHANE FOAM CLEANER

A cleaning solvent used to dissolve uncured low expansion polyurethane foam sealant and adhesive. It is also useful for dissolving grease on iron, steel, chrome, aluminum, non-varnished wood and marble. It is designed for use with our one-component dispensing guns.

HP Caulking Gun

Premier Industrial Supply's Premium 10oz. Caulking Gun provides 'Xtra' quality and 'Premier' durability, and is ideal for dispensing XtraBond 10oz cartridges/tubes. Designed and manufactured with a lightweight durable frame assembly for easy all-day application and extended life. Also integrated with a comfortable grip and trigger for a smooth and controlled thrust. Also features an adjustable wear compensation device for no-loss trigger motion, and a built-in ladder hook for convenience.

Sausage Gun

Premier Industrial Supply's 10oz and 20oz. Sausage Guns provide 'Xtra' quality and 'Premier' durability, and are ideal for dispensing XtraBond sausages (10oz or 20oz respectively). Designed and manufactured with a lightweight durable aluminum barrel for easy all-day application and extended life. Also integrated with a comfortable grip and trigger for a smooth and controlled thrust. Also features an adjustable wear compensation device for no-loss trigger motion.

Foam Gun

Premier's XtraFoam Gun is a highly suitable, eco-friendly, economical foam gun compatible with all standard polyurethane foam bottles. The foam gun has an adjustable control nozzle to control the flow of foam and it's plastic handle and steel barrel makes for simple use, easy cleanup and worry-free maintenance.

Backer Rod CLOSED & OPEN CELL BACKING ROD

A synthetic cell foam that comes in a variety of shapes and sizes from 1/4" up to 6". It is a cylindrical, flexible sealant backing composed of closed and open cell material per ASTM C1330. Backer Rod limits the depth of sealant and prevents excessive use of caulking.

Butyl Tape HIGH TACK BUTYL TAPE

A Premium Grade Multi-Purpose Cross Linked Butyl Based Tape. It is manufactured in convenient ready to use tapes, beads, and handy rolls. The material is comprised of a soft and pliable butyl and is easily worked by hand, yet bonds instantly to a wide variety of substrates.

XtraTape™ GT950 HI GRADE FOAM GLAZING TAPE

A closed cell polyolefin foam tape specifically designed for the fenestration and OEM industry. The tape is coated with a solvent based acrylic adhesive on both sides and seals against air, moisture, dust and any outside penetration. Both sides provide optimum performance and is developed to withstand high UV exposure. All tapes are in accordance and comply to AAMA 810.1-92 Type 1.

COATINGS:

XtraBond® 6500SC MODIFIED NEOPRENE SURFACE COAT

XtraBond®6500SC Modified Neoprene Sealant Surface Coat is a high performance, one component, easy to apply surface coating. XtraBond™ 6500 SC is approved for moisture driven markets and the product has been specifically designed for the truck, trailer and container markets to assure a waterproof surface coat & patch.

XtraBond® 9500SC MODIFIED POLYURETHANE SURFACE COAT

XtraBond®9500SC Modified Polyurethane Sealant Surface Coat is a high performance, one component, easy to apply surface coating. XtraBond®9500SC is approved for moisture driven markets and the product has been specifically designed for the truck, trailer and container markets to assure a waterproof surface coat & patch.

SUPERIOR CAULKING & SEALANTS

PRODUCT LINE BROCHURE

PREMIER INDUSTRIAL SUPPLY

We strive to meet our customers & distributors requirements by committing ourselves to quality, innovation and efficiency in product and customer service.

MODIFIED HYBRID SEALANTS:

XtraBond® 9500TX
TEXTURED POLYURETHANE SEALANT

A textured high performance, one component, permanently flexible, easy to use, multi-purpose fast cure modified polyurethane sealant. XtraBond® 9500TX cures rapidly when exposed to atmospheric moisture to form a durable bond.

XtraBond® 9500SL
SELF-LEVELING POLYURETHANE SEALANT

A high performance, self-leveling, one component, permanently flexible, easy to use, multi-purpose fast cure modified polyurethane sealant. XtraBond® 9500 cures rapidly when exposed to atmospheric moisture.

XtraBond® 9500UC
ULTRA-CLEAR POLYURETHANE SEALANT

An ULTRA-CLEAR, high performance, one component, permanently flexible, easy to use, multi-purpose fast cure modified polyurethane sealant. XtraBond® 9500UC cures rapidly when exposed to atmospheric moisture to form a durable bond.

LATEX SEALANTS:

XtraBond® 25
ACRYLIC URETHANE SEALANT

A premium grade multi-purpose acrylic latex sealant formulated to provide excellent adhesion and durability to a wide variety of interior and exterior substrates and applications. XtraBond® 25 has been specially developed for the installation of windows and doors.

XtraBond® 50
SILICONIZED ACRYLIC LATEX SEALANT

A premium grade multi-purpose siliconized acrylic latex sealant. Developed to provide excellent adhesion to vinyl, aluminum, wood, sheet metal and common building materials without the need of a primer. Specially developed for the use in the installation of windows & doors and has minimal shrinkage. XtraBond® 50 cures rapidly to form a durable tight bond.

XtraBond® 100
ACRYLIC URETHANE SEALANT

A premium grade acrylic urethane sealant. It has been specially developed for the use in the installation of windows, doors and siding markets. XtraBond® 100 is mildew resistant and has been formulated to provide minimal shrinkage when cured. XtraBond® 100 cures rapidly to form a durable tight bond.

SILICONE SEALANTS:

XtraBond® 150
RTV MILDEW RESISTANT SILICONE SEALANT

A one component, permanently flexible, RTV Mildew resistant silicone sealant. Manufactured for excellent adhesion to cultured marble, tile, glass, vinyl, aluminum, and sheet metal without the need of a primer. XtraBond® 150 cures rapidly when exposed to atmospheric moisture to form a durable tight bond.

XtraBond® 150HT
HIGH TEMPERATURE RED SILICONE SEALANT

A one part, easy to use, non slumping paste that cures to a silicone rubber when exposed to atmospheric moisture at room temperature. This product is formulated to perform at temperatures ranging from -80 deg. F to 500 deg. F continuous, and up to 600 deg. F for intermittent exposures.

XtraBond® 450
NEUTRAL CURE SILICONE SEALANT

A one component, non sag, permanently flexible neutral cure silicone sealant. Manufactured for excellent adhesion to vinyl, glass, aluminum, wood, sheet metal and most common building materials without the need of a primer. XtraBond® 450 cures rapidly when exposed to atmospheric moisture to form a durable tight bond.

POLYURETHANE SEALANTS:

XtraBond® 7500
FAST CURE POLYURETHANE SEALANT

A one component, high performance, permanently flexible, easy to use, multi-purpose fast cure polyurethane sealant. XtraBond® 7500 cures rapidly when exposed to atmospheric moisture to form a durable bond.

XtraBond® 7500TX
FAST CURE TEXTURED POLYURETHANE SEALANT

A textured, one component, high performance, permanently flexible, easy to use, multi-purpose fast cure polyurethane sealant. XtraBond® 7500TX cures rapidly when exposed to atmospheric moisture to form a durable bond.

XtraBond® 8500
MODIFIED POLYURETHANE SEALANT

A one component, medium modulus, permanently flexible, multi-purpose easy-to-use fast cure modified polyurethane sealant. XtraBond® 8500 is environmentally friendly and offers excellent adhesion to vinyl, sheet metal, steel, pre-painted metals, wood, glass, aluminum, plastic, common construction substrates of: window, door, siding, flashing & underlayment papers.

BUTYL & ROOF TILE ADHESIVES:

XtraBond® 1500
RUBBER BUTYL SEALANT

A one component, gun grade, permanently flexible, general purpose butyl rubber sealant. Manufactured for excellent adhesion to glass, wood, roof tile, concrete, clay, slate, sheet metal, most common building materials and plastics without the need of a primer. XtraBond® 1500 has excellent weatherability, non staining, paintable and stays permanently elastic even when exposed to both high and low temperatures.

XtraBond® 2500
CO-POLYMER SEALANT & ADHESIVE

An ULTRA-CLEAR, single component, permanently flexible, high performance adhesive/sealant. Manufactured for excellent adhesion and performance to a wide variety of roofing substrates, tile, concrete, clay, slate, pre-painted metals, masonry, stone, aluminum, and sheet metal without the need of a primer. XtraBond® 2500 cures rapidly when exposed to atmospheric moisture to form a durable tight bond.

XtraBond® 6500
ROOF TILE POLYURETHANE ADHESIVE

A one component, permanently flexible, roof tile polyurethane adhesive/sealant. Manufactured for excellent adhesion to roof tile, concrete, clay, slate, pre-painted metals, masonry, stone, aluminum, and sheet metal without the need of a primer. XtraBond® 6500 cures rapidly when exposed to atmospheric moisture to form a durable tight bond.

FLASHING SYSTEMS:

XtraFlash® Plus
ADVANCED FOLD FLASHING SYSTEM

XtraFlash Plus is a heavy duty, flexible, tear resistant, woven polypropylene mechanical flashing system incorporating a patent pending fold system. XtraFlash Plus utilizes a heavy weight material that has a 1 1/2" strip of butyl applied between the folded flashing of a 12" nail on polypropylene material as well as a 1 1/2" strip that will cover the traditional flange, once applied.

XtraFlash® Nail-On
WATER AND MOISTURE BARRIER SYSTEM

A heavy duty, flexible, tear resistant, woven polypropylene nail on flashing designed to prevent moisture and water intrusion when used around windows and doors. XtraFlash was engineered to provide excellent durability when exposed to high ultraviolet rays and has the ability to withstand high winds. The cross woven design is to be mechanically fastened with staples or capped nails.

XtraFlash® Membrane
BUTYL BASED WATERPROOF MEMBRANE

An aggressive self-adhesive & self-sealing waterproof flashing membrane that adheres to plywood, OSB, masonry, aluminum, vinyl, steel, drywall, and housewrap. The membrane is based on our proven water and moisture vapor barrier technology.

UNBEATABLE SOLUTIONS

9500 HYBRID SEALANT:

XtraBond® 9500 is a high performance, one component, permanently flexible, easy to use, multi-purpose fast cure modified polyurethane sealant. XtraBond® 9500 cures rapidly when exposed to atmospheric moisture to form a durable bond.

- AAMA Certified
- Non-Yellowing
- Environmentally friendly
- No solvents, very low VOCs
- Can be painted in 2 hours
- Fast cure at a wide range of temperatures
- Aggressive adhesion to common construction substrates
- Compatible with SBS Flashing

LOW EXPANSION FOAM SEALANT

A very low expanding, one-component, multi-purpose, polyurethane foam specially formulated to seal around window and door frames. The low pressure, airtight insulation foam blocks drafts, moisture and insects without bowing the window. It is environmentally safe, contains no CFC's or HCFC's.

- Windows & Doors
- Low expansion formula
- Environmentally friendly
- Ozone Friendly: CFC & HCFC Free
- Excellent adhesion to most substrates
