**XtraBond® 9500**  
MODIFIED POLYURETHANE SEALANT

A high performance, one component, permanently flexible, easy to use, multi-purpose fast cure modified polyurethane sealant. XtraBond® 9500 cures rapidly when exposed to atmospheric moisture to form a durable bond.

**Features:**

- Non-Yellowing
- Paintable
- No Solvents
- Extrudes at Zero Degrees
- Available in Over 230+ Colors

**Applications:**

- Windows
- Sheet Metal
- Industrial Applications

**XtraBond®9500M**  
HIGHLY FLEXIBLE MIRROR SEALANT

A highly flexible, gun grade, advanced polymer mirror adhesive. Specially formulated for bonding large and small mirrors to various substrates. It has excellent adhesion to all coated mirror backings including plate glass and acrylics, and has been designed with high flex, to address uneven walls.

**XtraBond®9500SL**  
SELF-LEVELING MODIFIED POLYURETHANE SEALANT

A high performance, self-leveling, one component, permanently flexible, easy to use, multi-purpose fast cure modified polyurethane sealant. XtraBond® 9500SL cures rapidly when exposed to atmospheric moisture to form a durable bond.

**XtraBond®9500TX**  
MODIFIED TEXTURED POLYURETHANE SEALANT

A textured high performance, one component, permanently flexible, easy to use, multi-purpose fast cure modified polyurethane sealant. XtraBond® 9500TX cures rapidly when exposed to atmospheric moisture to form a durable bond.

**XtraBond®9500UC**  
ULTRA-CLEAR MODIFIED POLYURETHANE SEALANT

An ultra-clear, high performance, one component, permanently flexible, easy to use, multi-purpose fast cure modified polyurethane sealant. XtraBond® 9500UC cures rapidly when exposed to atmospheric moisture to form a durable bond.

**ACCESSORIES**

**XtraWipes**

XtraWipes are pre-moistened, heavy duty, non-abrasive hand towels formulated to easily remove soil, grease, oil, and sealant from hands leaving them clean and conditioned. Powerful, yet safe, this multi-based formula works together within an absorbent hand cleaner towel for proven performance.

**Glass Cleaner**

An ozone friendly glass and surface cleaner formulated for the glass, windows and surface markets. It is an ammonia free, streak free, non-flammable, aerosol formula concentrate used to clean windshields, glass, metal, and other hard surfaces.

**Foam Cleaner**

A cleaning solvent used to dissolve uncured low expansion polyurethane foam sealant and adhesive. It is also useful for dissolving grease on iron, steel, chrome, aluminum, non-varnished wood and marble. It is designed for use with our one-component dispensing guns.

**HP Caulking Gun**

Premier Industrial Supply's Premier 10oz. Caulking Gun provides 'Xtra' quality and 'Premier' durability, and is ideal for dispensing XtraBond 10oz cartridges/tubes. Designed and manufactured with a lightweight durable frame assembly for easy all-day application and extended life. Also integrated with a comfortable grip and trigger for a smooth and controlled thrust. Also features an adjustable wear compensation device for no-loss trigger motion, and a built-in ladder hook for convenience.

**Sausage Gun**

Premier Industrial Supply's 10oz and 20oz. Sausage Guns provide 'Xtra' quality and 'Premier' durability, and are ideal for dispensing XtraBond sausages (10oz or 20oz respectively). Designed and manufactured with a lightweight durable aluminum barrel for easy all-day application and extended life. Also integrated with a comfortable grip and trigger for a smooth and controlled thrust. Also features an adjustable wear compensation device for no-loss trigger motion.

**Foam Gun**

Premier's XtraFoam Gun is a highly suitable, eco-friendly, economical foam gun compatible with all standard polyurethane foam bottles. The foam gun has an adjustable control nozzle to control the flow of foam and it's plastic handle and steel barrel makes for simple use, easy cleanup and worry-free maintenance.

**Backer Rod**

A synthetic cell foam that comes in a variety of shapes and sizes from 1/4" up to 6". It is a cylindrical, flexible sealant backing composed of closed and open cell material per ASTM C1330. Backer Rod limits the depth of sealant and prevents excessive use of caulking.

**Butyl Tape**

A Premium Grade Multi-Purpose Cross Linked Butyl Based Tape. It is manufactured in convenient ready to use tapes, beads, and handy rolls. The material is comprised of a soft and pliable butyl and is easily worked by hand, yet bonds instantly to a wide variety of substrates.

**XtraTape™ GT950**

A closed cell polyolefin foam tape specifically designed for the fenestration and OEM industry. The tape is coated with a solvent based acrylic adhesive on both sides and seals against air, moisture, dust and any outside penetration. Both sides provide optimum performance and is developed to withstand high UV exposure. All tapes are in accordance and comply to AAMA 810.1-92 Type 1.

**COATINGS**

**XtraBond®6500SC**

XtraBond®6500SC Modified Neoprene Sealant Surface Coat is a high performance, one component, easy to apply surface coating. XtraBond™ 6500 SC is approved for moisture driven markets and the product has been specifically designed for the truck, trailer and container markets to assure a waterproof surface coat & patch.

**XtraBond®9500SC**

XtraBond®9500SC Modified Polyurethane Sealant Surface Coat is a high performance, one component, easy to apply surface coating. XtraBond™ 9500SC is approved for moisture driven markets and the product has been specifically designed for the truck, trailer and container markets to assure a waterproof surface coat & patch.
