A REVOLUTIONARY SEALANT

Premier Industrial Supply, Inc. of Phoenix, AZ unveils the **latest in sealant technology** with the launch of a new line of sealants and adhesives. The revolutionary XtraBond™ 9500 Hybrid Sealant was developed with the strictest quality and sealing performance properties in mind for the residential window & door, OEM and construction industries.

Not stopping there, the XtraBond™ 9500 is fully AAMA certified, solvent free and environmentally friendly. Extra steps were taken to guarantee the product to be **non-yellowing** - a huge benefit for long term satisfaction, un-matched by the competition.
